

Event Handlers

```
handlerAdmins_Click()
handlerUsers_Click()
handlerDevices_Click()
handlerCombos_SelectedIndexChanged()
```

Draw and Update Panels

```
void DrawAdminsPanel(List<User> users, Panel panel)
void UpdateAdminsPanel(List<User> users, Panel panel)
void DrawUsersPanel(List<User> users, Panel panel)
void UpdateUsersPanel(List<User> users, Panel panel)
void DrawDevicesPanel(List<Device> devices, Panel panel)
void UpdateDevicesPanel(List<Device> devices, Panel panel)
```

Paint complete Boards

```
PaintRootBoard()
PaintAdminBoard()
PaintUserBoard()
```

```
List<User> LoadAdmins(string csv)
List<User> LoadUsers(string csv)
List<Device> LoadDevices(string csv)
```

```
bool CompareListOfUsers(List<User> users1, List<User> users2)
bool CompareListOfDevices(List<Device> devs1, List<Device> devs2)
```

```
void LoadStatsOnDGV(DataGridView dgv, string csv, string sum)
```

GLOBALS

```
// names of months
object[] MonthNames = new object[] { "Enero", "Febrero", ... };
// instances of forms before using them
FormLogin formLogin = new FormLogin();
FormUser formUser = new FormUser();
FormDevice formDevice = new FormDevice();
// global declaration of all DGVS
DataGridView dgv_admin_mon, dgv_user_mon, dgv_user_day, dgv_user_now;
// tooltips for all the controls in the window
ToolTip tooltip = new ToolTip();
// Logging Block
PictureBox loggingPicture = new PictureBox();
Label loggingLabel = new Label();
// Admins Panel Block
Panel panelListAdmins = new Panel();
Label lblTitleAdmins = new Label();
PictureBox addAdmin = new PictureBox();
// Users Panel Block
Panel panelListUsers = new Panel();
Label lblTitleUsers = new Label();
PictureBox addUser = new PictureBox();
// Devices Panel Block
Panel panelListDevices = new Panel();
Label lblTitleDevices = new Label();
PictureBox addDevice = new PictureBox();
// Combos
ComboBox cboMonth_mon = new ComboBox();
ComboBox cboYear_mon = new ComboBox();
ComboBox cboMonth_day = new ComboBox();
ComboBox cboYear_day = new ComboBox();
```
